Description	Hot stamping or foil stamping is a printing method of relief printing in which pre-dried ink or foils are transferred to a surface at high temperatures. The method has diversified since its rise to prominence in the 19th century to include a variety of processes. After the 1970s, hot stamping became one of the most important methods of decoration on the surface of plastic products.

# 2-2. Status Technology Development

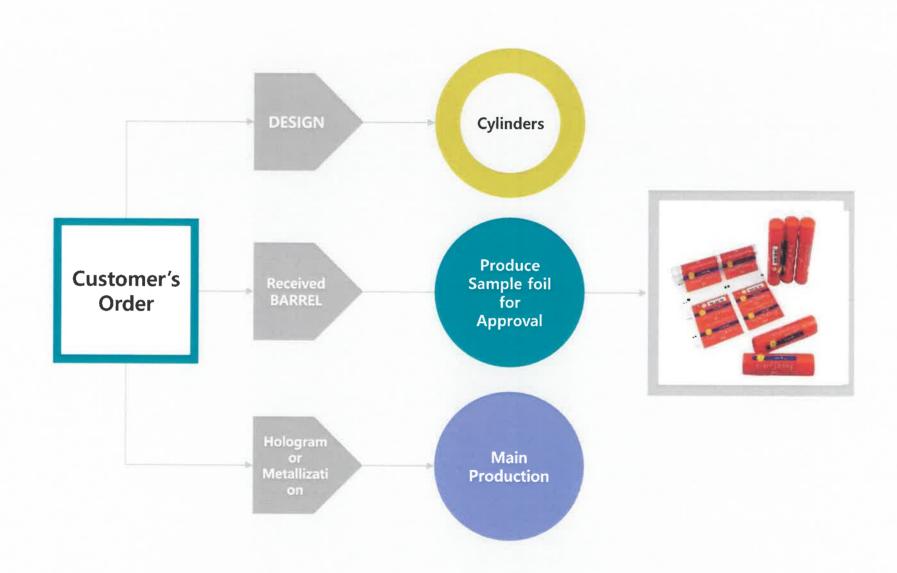

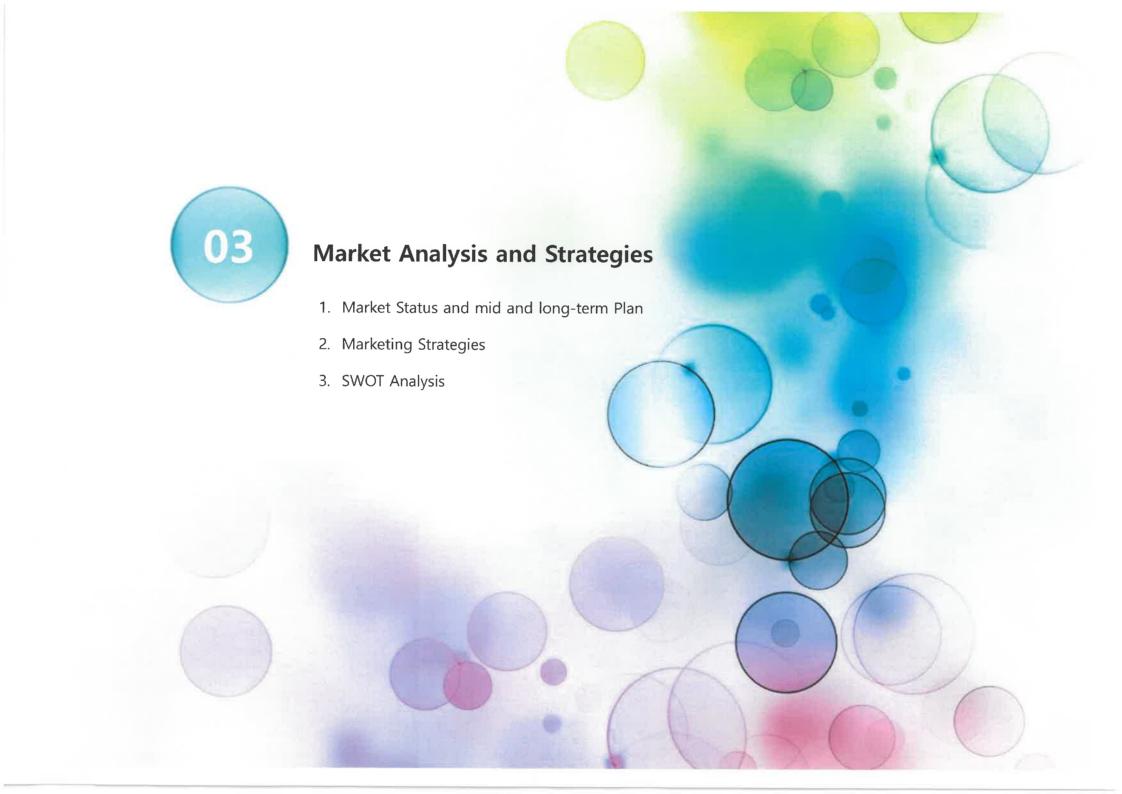

## 2-3. Production Process

### 3-1. MARKET ANALYSIS AND STRATEGIES

Size of Domestic Market: Over 75 Million USD

Size of Export Market : Over 3.4 Billion USD

1. Expected export sales increase 5~10 % annually following end of COVID-19

2. Expected expanding hot stamping foil field, Cosmetic business is growing up rapidly

- 3. Dongsung Gravure Sales Goal
  - 2.3 Million USD in 2023
  - 3 Million USD in 2024
  - Increase Market share over 15 % compare with 2022
  - Explore New Market ( More than at least 8 new customers)
  - Maximize sales by exporting (India, Vietnam, and so on)

# 3-2. Marketing Strategies

**PRODUCT** 

**PLACE** 

**PRICE** 

**PROMOTION** 

Adopt market's NEEDS and establish a competitive pricing Policy

Highlighted product excellence/ Improve defect rate and offer various great design

Establish domestic and overseas Networks

Continued customer satisfaction
With the highest quality and
credibility

## 3-3. SWOT Analysis

#### **STRENGTH**

- Excellent foil quality and recognition over
   20 years
- Securing world- Class technology

#### **WEAKNESS**

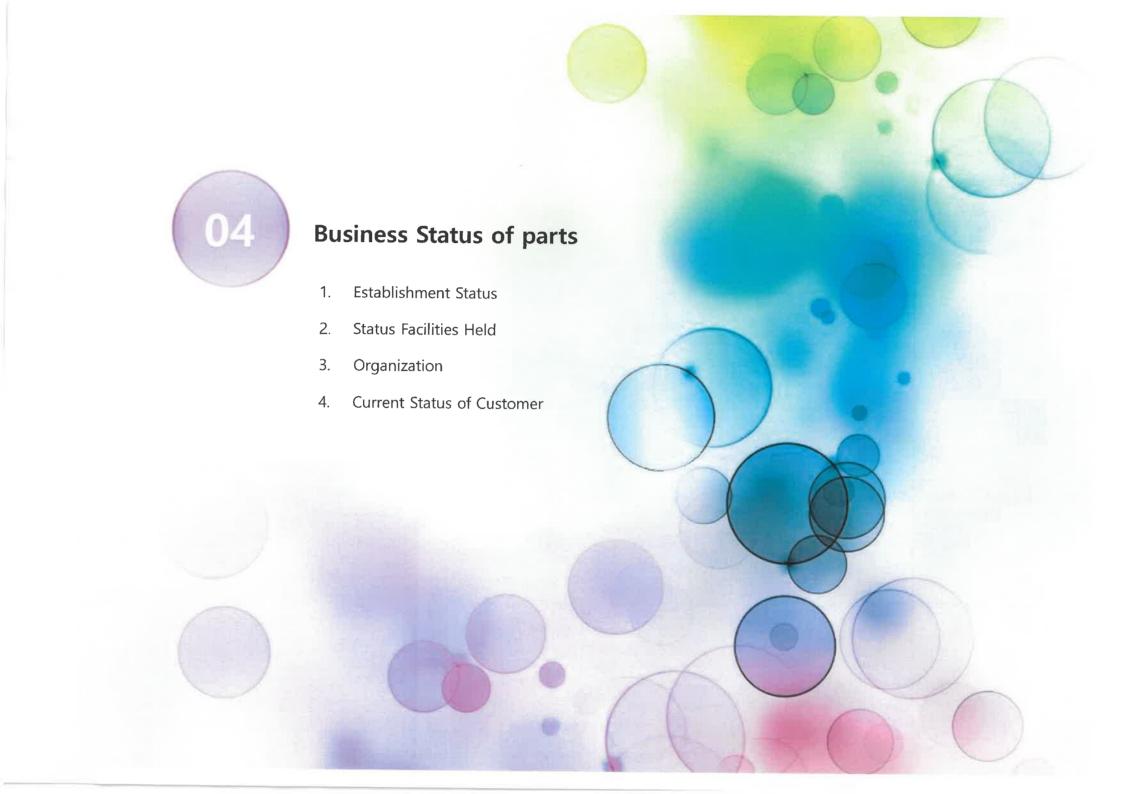

- Competitor increased rapidly
- Higher raw materials reduced profit margins

#### **OPPORTUNITY**

- Maximizing potential domestic and overseas market by end of COVID-19
- Receiving Re-Order from India Market

#### THREAT

- India foil manufactures begin to produce hot stamping foil
- Unit price is falling down rapidly due to overseas local manufacturers

## 4-1. Establishment Status

# HEAD OFFICE ASSET 106, Gimpo-Daero 1978 Beon-Gil, Tongjin-eup, Gimpo-si, Korea Appraisal Amount 2.5 Million USD
